Services & manufacturer lines

Custom kitting and vendor-managed inventory programs for repeat-use hardware, fasteners, fittings, and MRO parts.

CUSTOM KITTING
<ul style="list-style-type: none"> • Customer-specific kits built to a bill of materials, assembly, job, route, or work order.
<ul style="list-style-type: none"> • Labeled bags and boxes with part number, count, description, and revision details.
<ul style="list-style-type: none"> • One kit part number to order instead of dozens of separate line items.
<ul style="list-style-type: none"> • Fewer picks, fewer touches, cleaner receiving, and simpler A/P.
<ul style="list-style-type: none"> • Job-ready packaging for installs, repeat service, and production cells.

VENDOR-MANAGED INVENTORY (VMI)
<ul style="list-style-type: none"> • Min/max replenishment for bins, shelves, and repeat-use parts.
<ul style="list-style-type: none"> • Kanban and two-bin approaches where they fit the customer workflow.
<ul style="list-style-type: none"> • Cycle counts, usage review, and practical restock planning.
<ul style="list-style-type: none"> • Just-in-time replenishment for production, maintenance, fleet, and field teams.
<ul style="list-style-type: none"> • A local Pennsylvania partner for keeping critical hardware on the shelf.
